

The formula for calculating the taxes based on the assessed value is:

Market value x (assessment ratio) x mill levy/1000 = taxes

Assessment ratios are 9.5% for residential/commercial/agricultural

11.5% for industrial property

Minerals are taxed at 100% of value

For example:

Market value 100,000 x 9.5% = \$9500 in assessed value x mill levy of 65.000/1000 = 617.50 in taxes
